SEASON 1942

WHOLESALE PRICE LIST

Standardized Graded
NURSEY STOCK
Adapted to the Southwest

Yes, Griffing's practice religiously the Standardized System of Grading Nursery Stock for their Customers; being firmly convinced that it is the only "Honest System of Grading" Trees and Shrubbery. Whether you pick it yourself, or leave it to us, you'll get the same selections of Quality. We list the **XX** or **Standard Quality**, as well as the **XXX** **Extra Heavy Quality** in this Price List.

GRIFFING NURSERIES

BEAUMONT, TEXAS

57 Years Continuous Service

INDEX

Locate the Family name of each variety in Alphabetical order, Either Common or Botanical Name.

Cross-indexes will correct you if you looked for under botanical names or synonyms. This new System we hope will be a Time Saver to our busy Customers in looking up prices for handy reference.

This saves time finding what you want, just as easy as A, B, C's, or as listings in a Telephone book. Simply look under the family group, such as "Firethorn" under "F"; and "Jasmine" under "J", etc.

TERMS OF SALE

This Price List supercedes and cancels all outstanding Wholesale prices. On account of the Defense Program, Prices and Terms of Sale are subject to change without notice because of soaring prices in labor and material costs.

PAYMENTS: All accounts are payable at Beaumont, Texas. Where credit is established 2 per cent Discount allowed for payment within 10 days, or 30 days net. 8 per cent interest charged after 30 Days.

CASH AND QUANTITY DISCOUNTS

To all Landscape men, Nurserymen and Dealers, it pays to take advantage of our Discounts:

ORDERS up to \$50.00, 5% Cash Discount.

ORDERS for Truck-load lots of 5000 lbs or more, 10% Cash Discount.

ORDERS for Carload Lots, 15% Cash Discount.

PACKING: All prices are f.o.b. Shipping Point. All Stock will be packed in approved manner. Where Stock is loaded bulk in car or truck, without tops wrapped, no charge for packing is made. Where L.C.L. or Express shipments require baleing, boxing, or crating, we make a charge for material and labor at cost.

SPECIMEN NURSERY STOCK: For specimen Stock above XX and XXX Quality, selected or marked in the Nurseries, will be priced according to its value.

RESERVE ORDERS: Reserve orders are accepted upon payment of 25% advance, and upon the condition that they shall be void, should injury befall the Stock, or error in count before shipment, or other causes beyond our control.

GUARANTEE: We guarantee our Stock to be well grown, true to name, properly packed and shipped according to instructions. In no case shall our liability be more than the original Invoice value. We cannot guarantee plants to live or grow after they leave our hands.

CLAIMS: Complaints properly presented will be given special attention. Any claims must be made upon receipt of shipment, or within five (5) days. Be sure to have exception for damaged noted on Transportation receipt at time of delivery.

SHIPPING POINT: All prices are f.o.b. our Nurseries, and Shipments travel at the risk and expense of the Purchaser. We load trucks and Carloads at our Nurseries. Carload shipments billed from Mt. Evergreen, or Gilburg, Texas siding, adjoining our fields. Express and Less Carloads shipped from Beaumont, Texas.

Personal Message

MR. GRIFFING SAYS:

"The making of our Wholesale Price List this Year has been more difficult than usual, because of the unsettled conditions affecting prices; however we are after careful study, presenting to you this copy of our 1942 Season's Wholesale Price List, as guidance on Nursery Stock we have to offer.

"There may be occasion to make some changes in these prices anytime, because Labor, Burlap, Nails and String, all of which play a major part in pricing materials, are on the increase, and rather difficult to secure.

"THE QUALITY of our NURSERY STOCK this year is most excellent, having had good rains all Summer during the growing season. The color is good, the growth is most compact, and it is in excellent shape to be transplanted.

"We continue the practice of Grading our Trees and Shrubs by the American Association of Nurserymen's Standardized System of Grading, because we think it is the only fair way of grading Nursery Stock and giving our Customers a square deal. This Price List covers both XX Standard Quality and XXX Extra Heavy Quality Trees and Shrubs.

"This year we have given the approximate shipping weight of all Trees and Shrubs in this Price List, because of the urgent demand from our Customers to determine shipping costs. The weights given are for the XX quality, heavier branched plants will weigh more according to the development of the top.

"The usual "GRIFFING WELCOME" awaits you, so visit us and look over our materials this Season, and let us take care of your requirements with good Quality Nursery Stock."

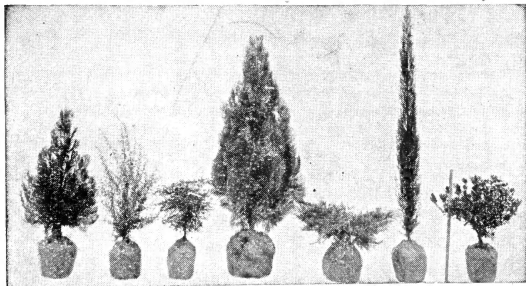

W. C. GRIFFING,
Griffing's Nurseries.

HOW WE BALL

We do not Spade the Balls Out and tie burlap around the Loosened Soil, nor do we Drive a Cylinder around to cut roots Too Short, but the Soil is Solid, never cracked and Size of Ball to conform to the Root System.

A FEATURE ABOUT GRIFFING'S B&B NURSERY STOCK YOU MUST NOT OVERLOOK

Our Great Success in transplanting Trees and Shrubs safely at all Seasons may be largely Attributed to our Wonderful Balling Soil. There is no Other Just Like it. We have the soil that is "just right" for Balling and Burlapping. The Ball is Cut out in one solid piece, often compared to Slicing a "piece of cheese" Note the solidity of the Ball in the illustration.

B&B—Ready to Plant

CAUTION

Never lift Trees and Shrubs by the Top. Lift the Ball Itself by grasping it with both hands around the Ball, or Larger Balls by making a Sling of Burlap, so as not to Loosen Roots in the Ball.

INDEXED PRICE LIST

ALPHABETIC LISTING

With Both Common and Scientific Names

All trees, Shrubs and Vines in this catalog are under their **common names**, according to "Standardized Plant Names."

A. B. C. BY FAMILIES

For your convenience in finding what you want, we are listing all Trees and Shrubs **by their common names** in Alphabetical Order. We are **cross indexing the botanical names** and synonyms to assist you in finding what you may be looking for. Botanical names to right of all common names.

ABELIA GLOSSY—*A. Grandiflora*

Attractive Evergreen Shrub.

Class	Min.	Ht.	Apx. Wt.	XX	XXX
B&B	18	in.	35 lbs.	\$.65	\$.90

B&B	4	ft.	130 lbs.	1.50	2.00

ALGERITA—*Mahonia trifoliata*

Leaves similar to Holly. Yellow Flowers and edible berries.

Class	Min.	Ht.	Apx. Wt.	XX	XXX
B&B	18	in.	40 lbs.	\$.60	\$.80
B&B	2	ft.	60 lbs.	.80	1.20
B&B	3	ft.	100 lbs.	1.20	1.80
B&B	4	ft.	140 lbs.	1.80	2.50

ARBORVITAE

Thuja orientalis

There are **two types** of Arborvitaes, which are known as Occidental and Oriental. The **Occidentalis** are generally **not suited** for the Southern States, while the **Orientalis** or Chinese types all do well in the South. The Oriental type is also classed as "**Biota**," which is now **unapproved**.

BAKER'S HYBRID

T. or. Baker's New Hort. var.

Tall-growing columnar habit. Excellent bright green color most of the season; however, frequently becomes slightly brown in winter.

MAURINE

T. or. Griffing's New Hort. variety

One of our originations; dark green pyramid.

WINTERGREEN

T. or. Griffing's New Hort. variety

More compact growing, cone type, very dark green color.

Class	Min.	Ht.	Apx. Wt.	XX	XXX
B&B	4	ft.	60 lbs.	\$1.00	\$1.25
B&B	5	ft.	80 lbs.	1.25	1.50
B&B	6	ft.	140 lbs.	1.50	2.00
B&B	8	ft.	200 lbs.	2.00	2.50

BERCKMAN'S GOLDEN

T. or. aurea nana

Compact, bushy dwarf habit. Foliage rich yellow—one of the best known Arborvitaes.

Class	Min.	Ht.	Apx. Wt.	XX	XXX
B&B	18	in.	35 lbs.	\$.70	\$.90
B&B	2	ft.	55 lbs.	.90	1.40

RAMSEY HYBRID**T. or. Ramsey' New Hort var.**

Broad at base. Cypress-like foliage. Bluish-green throughout the year. Excellent for accent specimens.

Class	Min. Ht.	Apx. Wt.	XX	XXX
B&B	5 ft.	100 lbs.	\$1.00	\$1.75
B&B	6 ft.	125 lbs.	1.75	2.50
B&B	10 ft.	300 lbs.	2.50	3.50
B&B	12 ft.	400 lbs.	3.50	5.00

**A Z A L E A**

Azaleas which were used sparingly in Landscape plantings over a period of years, in the Southwest have come into prominent place in all types of plantings. With their Evergreen foliage, and gorgeous blooms in the early Spring Season, no planting is considered complete without them.

All Azaleas require an acid soil, hence leaf-mold or Peat moss for mulching the roots should be added over the surface of the plant beds. Lime and alkali conditions of soil require special preparation with new acid soil.

There are no more beautiful Flowering Shrubs than the Azaleas for the Gulf Coast area.

FORMOSA**A. indica formosana**

We recommend and grow principally the well-known, hardy indica formosa, which thrives in the open. Blooms heavy, rich Rose-Pink flowers in gorgeous array.

Class	Min. Sprd.	Apx. Wt.	XX	XXX
B&B	9 in.	25 lbs.	\$.80	\$1.00
B&B	12 in.	30 lbs.	1.00	1.25
B&B	15 in.	40 lbs.	1.25	1.65
B&B	18 in.	50 lbs.	1.65	2.25
B&B	2 ft.	75 lbs.	2.25	3.50
B&B	3 ft.	100 lbs.	3.50	4.90
B&B	4 ft.	220 lbs.	4.90	7.50
B&B	5 ft.	450 lbs.	7.50	10.50

AZALEA—(Continued)

NOTE—We are only pricing one variety here, but we have some of the following varieties in assorted sizes at the same price as the Formosa variety.

BRICK-DUST**A. indica brick-dust**

Low growing compact type with light orange-red flowers. A late bloomer.

DAPHNE SALMON**A. indica salmon**

Medium sized flowers, pleasing salmon coloring. Mid-season bloomer.

DIXIE**A. indica dixie**

Vigorous free grower, flowers deep Salmon pink.

ELEGANS**A. indica elegans**

Hardy, fast growing, open growth with good foliage. Free flowering with medium sized bright pink blooms.

OMURASAKI**A. indica omurasaki**

Smaller growing shrub with rose-lavender flowers in mid-season.

PHONENICA**A. indica phoenica**

Early flowering type, somewhat like Formosa but has more petals. Slow in growth but very compact shrub. Flowers Rose-pink shaded with lavender.

PRESIDENT CLAY**A. indica pres. clay**

Orange-red with purple spot at throat. Blooms early.

PRIDE OF MOBILE**A. indica pride of mobile**

Fast grower, most brilliant color blossoms of rich shell pink, blooms in mid-season.

WILLIAM BULL**A. indica Wm. Bull**

Hardy, upright grower, quite open growing bush, very double orange-red flowers in last season.

Should be planted more, these being varieties of the non-suckering type.

ASH, ARIZONA—Fraxinus velutina**(Evergreen Ash) (Rio Grande Ash)**

Especially suited for the Gulf Coast. Does not shed leaves in summer.

From 3-in. Pots.....	\$.90	\$.90
From 4-in. Pots.....	.90	1.25

CORNUS—See Dogwood.**CORTADERIA—See Pampas Grass.**

CAMELLIA

Japonica

Camellias are sometimes called the "Aristocrats of Southern Gardens." They are easily grown in the South, and their rich, glossy foliage and colorful flowers make them unusually attractive. There are many named varieties, but not all are desirable. The flowers are produced during the mid-winter when no other flowers are found in the garden, bringing increased admiration for this plant.

ALTHEA FLORA

C. japonica althaei flora

Full peony form flower, shading from pink to white.

Class	Min. Ht.	Apex. Wt.	XX	XXX
B&B.....	2 ft.	80 lbs.	\$4.00	\$6.00

CAPE JASMINE

Gardenia

One of the most commonly known Evergreen Flowering Shrubs in the Gardens of the South. Very popular for their fragrant, white flowers. Does not like lime or alkali soils. Prefers neutral or acid soils.

DWARF SPREADING *Gardenia radicans prostrata nana*

Spreading habit. Small, pointed leaves about one-half inch wide glossy green. Miniature *Gardenia* flowers, fragrant and snowy white; blooms early in the Spring and occasionally during the Summer. Grows better in full sun, but will grow in partial shade. Used for low groups and borders.

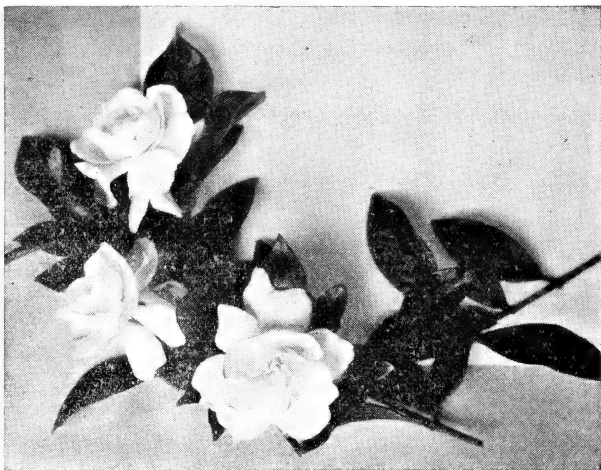

Class	Min. Sprd.	Apx. Wt.	XX	XXX

CAPE MYRTLE

Lagerstroemia indica

We grow most of ours in Balling soil—it pays to ball them. Write on order if single stem, many stems from ground or if bushy plants are wanted.

BALLED and BURLAPED CAPE MYRTLES transplant with unusual success from our Balling soil, to live, grow, and blossom heavy the first season. Why not give immediate effects this way? With the wide variety of colors to select from, they can be used extensively in the Landscape. B&B Cape Myrtle transplant into cold climates with success, whereas bare-rooted plants winter kill.

The favorite Flowering Shrub of the South. A hardy and heavy bloomer; it paints the landscape in the summer months with its brilliant blossoms in tones of crimson, red, pink, purple, and other shades. Frequently termed the "Lilac of the South." Interplanted with evergreens, beautiful effects are obtained. Massed in groups of any size, a display of color unrivaled is had the first summer. The most generous usage and the demand of recent years indicates its great popularity.

DWARF BLUE

L. i. corrulea nana

Low spreading, lavender-blue flowers in loose panicles which almost cover the plant.

DWARF LILAC

L. i. lilac nana

Rounded top, spreading habit of growth, with pastel lilac flowers.

PRUNE EVERY WINTER—For best results Cape Myrtles should be cut back to one foot of the ground when planted. (By using big sizes you get better root systems.) Then every year thereafter prune them back to within 2 to 4 inches where they were the year before. In this way you get much larger flowers, thick branches, and dense foliage.

LAVENDER

L. i. lavendula

A bright shade, very attractive and highly desirable. Large fluffy flower heads.

EULALIA—See Grasses.

E LA E A G N U S

No group of Broadleaf Evergreens have grown more in favor during the past few years than the **Elaeagnus Family**. A most versatile Shrub, for foundation plantings, groups, borders or hedges. To our knowledge, **no other shrub grows better** than Elaeagnus **in shady locations**, as well as **in full sun**. Small white flowers, followed by small yellowish-red edible fruit.

They have found their way into many Gardens in the Southwest, and have received much **praise and admiration** wherever they are planted. With their increasing popularity they are **destined to be** the most outstanding Broadleaf Evergreen for general use.

ELAEAGNUS—(Continued)**USEFUL FOR HEDGES**

Most hedge materials fail to thrive in shade, yet often hedges are required under Shade Trees as well as in the open sun. Most satisfactory for this purpose has proved the *Elaeagnus* which seems to care not a bit whether it is called upon to grow in the bright sun or dense shade.

Note—All *Elaeagnus* Cutting Grown.

BROADLEAF***E. pungens macrophylla***

Leaves are large and pointed, upright grower, one of the best large fast growing types to be planted in the back-ground of groups

DWARF THORNY***E. pungens nana***

Semi-spreading compact habit. This variety is exceptionally good when planted under windows where it can be constantly sheared, making a wide spreading growth.

FRUITLAND***E. pungens fruitlandi***

Very similar to Broadleaf, only it has more open weeping habit of growth.

GRIFFING'S COMPACT***E. Griffing Hor. var.***

New and unusual variety, a sport of the Fruitlandi discovered by us in 1934. Preferred to all other varieties of *Elaeagnus* by many customers and Landscape men because of its close compact, attractive growth. Semi-spreading compact habit, leaves of medium size and quantities of small branches makes it very attractive and good for clipped hedges or Specimen plants.

ROSEDALE***E. Griffing Hor. var.***

A new sport. Small leaves, upright growth, many small branches. Where used in shade for Hedges with its new bronze leaves and brownish bark makes excellent contrast color in plantings.

SIMON***E. pungens simoni***

Small dark green leaves and upright growth, and when the foliage is young, it adds attractiveness to the silvery-white coloring. Preferred by some for back-ground planting or a tall narrow hedge.

Grown in 4 in. pots.....	.90	1.25

FIRETHORN

Pyracantha

Sometimes called "Crataegus" and "Evergreen Hawthorn." A family of plants of the **greatest beauty** in masses against foundations, along borders etc.; graceful branches, **Brilliant winter berries**. The berries cling till spring, when attractive **white flowers** take their place. Blooming at the same time as Spirea, (Bridalwreath) and most attractive, so that the plant always has some Beauty in addition to its green foliage.

The larger sizes require large balls and severe pruning.

GROWN FROM CUTTINGS

GLORIOSA

Pyracantha gloriosa

Upright Spreading habit, Bright orange-Red berries form in large clusters.

LALAND

Pyracantha coccinea lalandi

Upright grower, Orange colored berries.

SCARLET

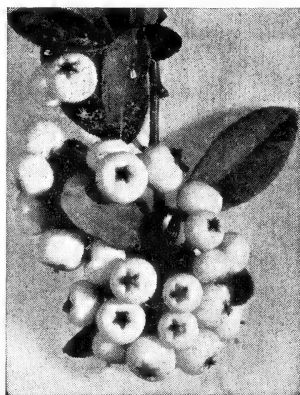

Pyracantha yunnanensis

Bushy habit. Orange-red berries. These are allowed to grow natural and spread each way.

YUNNAN

Pyracantha yunnanensis

Spreading habit, coral-red berries. All Stake Trained.

Cluster of Berries from
Wilma Firethorn.

The New Pyracantha
"Wilma."

WILMA

Griffing's Hort. variety

A new Firethorn we introduced two years ago that has upset all records for sales for the Landscape. It is upright in habit of growth, masses of white flowers in the Spring, and clusters of large gorgeous red berries during the Fall season. The most talked of and in greatest demand for the Landscape of any other variety known for general planting.

HOLLY

Ilex

There are many kinds of Hollies, some make Trees, others shrubs—all are valued for their berries. However, all the Trees or plants do not bear berries. Pistillate ones will bear if Staminate ones are grown close to them.

NOTICE: Both pistillate (Berry-bearing or Female) **and staminate** (Non-Berry-bearing or Male) types. The Pistillate types will bear berries only when properly cross-pollenized by the **Staminate type**. There should be one staminate for every five pistillate.

The Hollies are beautiful plants at all times, some varieties making large trees, and others small compact shrubs. Being clothed in hard, shiny, irregularly formed foliage, they hold their own among other Trees and Shrubs but in Winter, when loaded with beautiful berries, they are the glory of the garden. The Hollies are adapted to many uses—as individual specimens, in groups, foundation and border plantings, and formal clipped hedges. The Yaupons grow readily in the shade, and are not affected with heat or drouth conditions.

AMERICAN HOLLY

Ilex opaca

Tall, pyramidal growth with horizontal branches. Large, rounded, glossy dark green leaves with spines. Bears masses of bright red berries in winter. Grows both in shady locations, and in full sun. Thrives best in sandy loam soil. This is the beautiful Holly used for holiday decorations. In addition to this, it is worthy of far more attention from Landscape Gardener than it usually receives. A native of the Eastern and Southern States. We list only Staminate or Non-Berried plants below. Berried plants can be obtained from 6 ft. size and up at **double price** of list below.

B&B	8 ft.	190 lbs.	2.50	3.50

NOTE—Add 25% for Berried Plants.

Red Berries Attract Attention

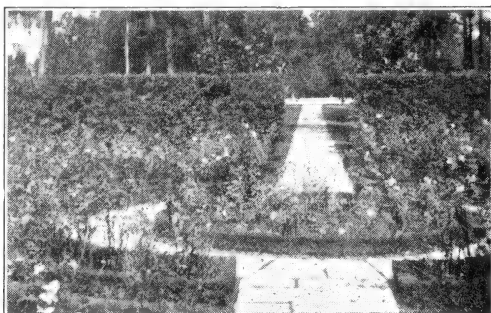

Y A U P O N H O L L Y**Ilex vomitoria**

This is undoubtedly the best of the native shrubs. It can be kept sheared resembling the fine-leaved Boxwood. Nursery grown, root pruned, balled from our Beaumont Balling Soil. Compact growth, highly improved over those grown in the woods. We have sheared some into Globes, Cones, Squares and Pyramids. We also grow blocks for Hedge Purposes and constantly headed back while small makes low compact hedges to start with. Umbrella shaped trees or compact bushy shrubs. The finest shrubs for compact hedges, sheared or unsheared. The young stems are light brown, turning to a light gray. The leaves are small, lustrous green above, and paler beneath, and cling from two to three years. The transparent red berries are very outstanding. This variety of Holly grows in all soils, and in shady locations, or in the open sun. Makes the best Evergreen Hedge. Also, useful as specimens, screens, accents in foundation plantings; in fact, anywhere in the Landscape Planting. They can be pruned to any shape or size, and with but little work, look well at all seasons. Immune from all known kinds of insects and fungus diseases.

YAUPON HOLLY**Natural Type****BERRY BEARING—Pistillate—Female**

The natural growth types have only had the long side branches sheared when young, causing them to take a center shape with many uniform branches.

MAGNOLIA

The Magnolia family consists of the Magnolia grandiflora so commonly known in the South. Then there are the deciduous Magnolias, some blooming before the leaves come out in the Spring, while others bloom during the Summer. There are also several varieties of the Cucumber Magnolia which make large leaves and flowers. We offer several of these varieties, and especially the large leaf Southern Magnolia which should be planted extensively in the Southern States.

O A K S--Quercus

Nursery grown Live Oak Trees live and thrive under all conditions when the Trees have been root-pruned and properly Balled from the right kind of balling soil and pruned properly as they are dug.

PLANT EVERGREEN OAKS

Live Oaks are rapidly becoming the most popular Shade Tree in the South, because they are evergreen, and because they make such a shapely tree for any purpose they may be used. Our **Spanish type of Live Oaks** are the fastest growing variety, but even then it takes **Several years** for a small tree to grow large enough to **give shade**. There is nothing more beautiful than the true "Spanish" Live Oak. This type has thick dark green, oblong, pointed leaves that glisten in the sunlight, the under side being a grayish-green color.

Fast Growing Evergreen Spanish Live Oak

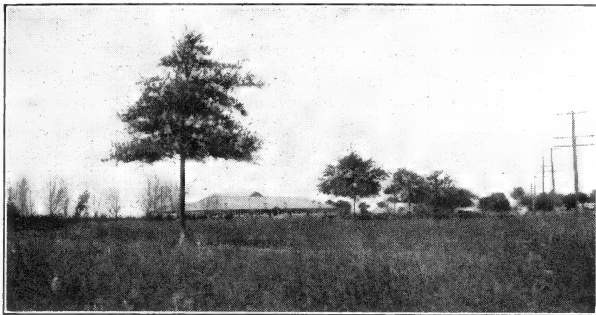

LIVE OAK (Spanish Type) *Quercus virginiana*

We have the **complete stock** from Acorns gathered in Florida from the choicest **insolated groves** in existence, so there is not a chance of **hybridizing**. This true type of **fast-growing Oaks** are destined to revise the idea that Live Oaks are a **slow growing tree**, much different from the ordinary native Live Oak in Louisiana and Texas, which we call the **Scrub Live Oak**, but takes too long to grow. Always clean, rich foliage. Very straight bodies. From young seedlings we trim to single stem in center, not allowing forks even on our 20 foot trees. In centuries to come these forked trees may split open and ruin the tree.

Class	Min. Ht.	Min. Clpr.	Apx. Wt.	XX	XXX
B&B	6 ft.	1 in.	70 lbs.	\$1.30	...
B&B	7 ft.	1 ¼ in.	100 lbs.	2.10	...

B&B	11 ft.	2 ¼ in.	200 lbs.	6.00	7.00
B&B	12 ft.	2 ½ in.	225 lbs.	7.00	9.00
B&B	13 ft.	3 in.	300 lbs.	9.00	11.00
B&B	14 ft.	3 ½ in.	400 lbs.	11.00	13.50
B&B	16 ft.	4 in.	500 lbs.	13.50	16.00
B&B	18 ft.	4 ½ in.	750 lbs.	16.00	22.00
B&B	22 ft.	5 in.	950 lbs.	22.00	30.00
B&B	26 ft.	6 in.	1200 lbs.	30.00	45.00
B&B	30 ft.	8 in.	2000 lbs.	45.00	65.00

Our **Live Oaks** have been regularly root pruned, and grown in our **black heavy** Beaumont Balling Soil, they have a **compact root system**, which makes the transplanting of them more expensive but much more **successful** than forest-grown trees.

Experimental reports have been made by Experiment stations after several years of study on suitability of soils for growing Live Oak trees. The tests show that they will grow on any kind of soil equally as well as on another, whereas deciduous Oaks can only be grown on sour soil.

These Trees were properly pruned—Notice how the top branches have developed by the second year.

Our Oaks are given careful attention, all forks being cut out, with the center stem retained, forcing all branches to come out horizontally from the main trunk. With this training, the center stem continues to grow upward, and the horizontal branches form a beautiful tree.

NATIVE TYPE LIVE OAK

Q. virginiana

Nursery grown and root pruned, but slow growing native type, more irregular in shape of growth.

THE GRIFFING STORY: Airplane view of our more than 300 acre nursery, growing thousands of fine Evergreens; located on the largest irrigation canal in the world, employing 50 to 100 men regularly.

PODOCARPUS

One of our most attractive trees or shrubs. The fruit is very peculiar, as it has a blue stem with a red ball at the end. Can be planted at the water's edge without injury from salt sprays. One of the most versatile trees grown, for borders and groups, or in individual specimens.

BROADLEAF YEW

Podocarpus macrophylla

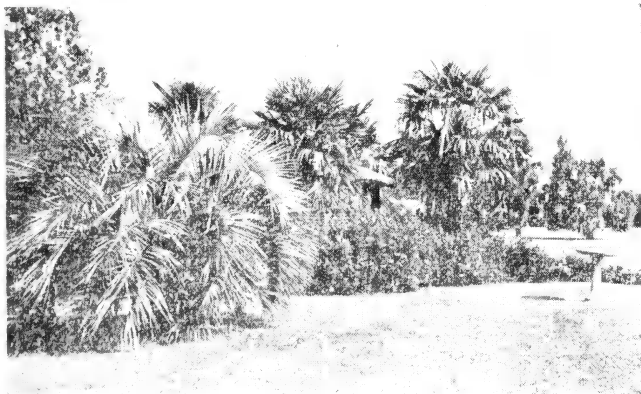

Beautiful evergreen, upright branching shrub or small tree. Rather broad leaves, light green when young, dark green when mature.

LITTLELEAF YEW

Podocarpus Microphylla

Similar to macrophylla, except bush is more compact in form, and more slender growth; leaves are more narrow, and are green from youth to maturity.

Palms Used in the Landscape of Southern Estates

PRIVET

Ligustrum

This is another large family with various shaped leaves, branches and color, etc. Largely used throughout the South. All varieties have masses of white flowers followed with black berries.

BLACKLEAF

L. lucidum nigrafolium

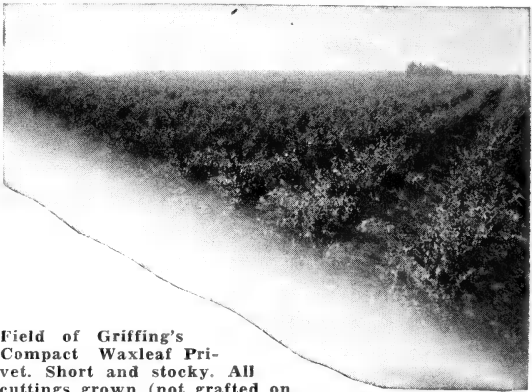

Distinct black-green foliage. Most hardy of the Ligustrum group; very thick and glossy shrub.

CRINKLYLEAF

L. lucidum recurvifolium

A descriptive name from its twisted or crinkly leaves. Its long arching branches with dark green foliage makes it very attractive; much hardier than most of the lucidum types.

Class	Min. Ht.	Apex. Wt.	XX	XXX

Field of Griffing's Compact Waxleaf Privet. Short and stocky. All cuttings grown (not grafted on Hedge Plants that sprout from the bottom and leggy growth.)

NEPAL PRIVET

L. nepalense

Small round, dark green leaf, dwarf in habit.

VARIEGATED NEPAL

L. luc. nepalense var.

Low bushy growth, green leaves with slight variegation of yellow in margin.

QUIHOU

Ligustrum quihoui

Upright habit, small grayish-green leaves. Blooms throughout the season; not affected by nematode.

Class	Min. Ht.	Apex. Wt.	XX	XXX
B&B	2 ft.	40 lbs.	\$.40
B&B	3 ft.	80 lbs.	.50
B&B	4 ft.	100 lbs.	.65

GRACEFUL

L. lucidum gracilis

Branches gracefully recurved, dark green foliage.

PYRAMID

L. lucidum pyramidalis

Pyramid form, leaves growing upward on the stem. Tall, narrow, broadleaved Evergreen.

UPRIGHT

L. lucidum erecta

All branches grow in upright position, resembling Waxleaf.

YELLOWLEAF

L. japonicum aureafolium

A tall grower with large yellow leaves.

RED CEDAR—See Junipers.

ROSA-de-Montana—See Coral Vines.

ROSES

We have two varieties to take the place of Everblooming Flowering Shrubs, for Hedges, or in low groups.

AZALEA ROSE

Flowers much larger than the usual Baby Roses. Clusters large on good strong stems, growing about 2 ft. high. A free and vigorous grower and abundant bloomer. Color, a bright rose pink.

LOUIS PHILIPPE ROSE

The foliage is always bright and green. The bush is a very strong grower of bushy habit and with bright red flowers, hanging in clusters over the bush at all seasons of the year, it is one of the best flowering shrubs that can be planted.

TRANSPORTATION INFORMATION

L. C. L. or MOTOR FREIGHT takes Fourth Class, whether packed in Bales, Boxes, or Crates to any point in the Southwest.

B&B CARLOAD RATES TAKE LOWER CLASS—There is now a New Balled and Burlapped Carload Freight Classification in the Southwest including the States of Texas, Arkansas and Louisiana points West of the Mississippi River; Oklahoma, New Mexico, and a greater part of Southern Missouri; also to Memphis, Tenn., and other cities South to New Orleans, La., on the Mississippi River.

B&B CARLOAD RATES in the above Territory, applies to 18,000-lb. Minimum Carloads, which takes Column No. 25; and on a 30,000-lb. minimum Carloads, takes Column No. 20 rate (20 per cent of First Class).

RATES are effective **NOW** in **TEXAS**, and after December 1st, 1941, in other states above mentioned.

EXAMPLES OF LOW CARLOAD RATES effective to various Cities as follows: (Column No. 20, or 30,000-lb. Minimum Carload quoted). From our Shipping Point, to:

Amarillo, Texas	44c	Laredo, Texas	36c
Albuquerque, N. M.	53c	Little Rock, Arkansas	35c
Baton Rouge, La.	24c	Memphis, Tennessee	39c
Corpus Christi, Texas	30c	Monroe, Louisiana	28c
Dallas, Texas	29c	Natchez, Mississippi	28c
El Paso, Texas	53c	New Orleans, Louisiana	28c
Enid, Oklahoma	43c	Oklahoma City, Okla.	39c
Fort Worth, Texas	30c	San Antonio, Texas	29c
Galveston, Texas	16c	Shreveport, Louisiana	25c
Harlingen, Texas	36c	Tyler, Texas	24c
Houston, Texas	17c	Waco, Texas	27c
Jonesboro, Arkansas	40c	Vicksburg, Mississippi	31c

For other points in this Territory, ask your Local Freight Agent the Rates from Mt. Evergreen, Texas, to your City; or write us direct for it.

WEIGHTS OF B&B NURSERY STOCK

Weights given in this Price List are the approximate weights on our XX Quality of Nursery Stock, which is our Standard Quality. Weights on the XXX Heavy Quality will run about 25 per cent higher than the weights stated. Specimens, which we do not list, will oftentimes run about Fifty (50) per cent more than the XX quality. **NOTICE:** weights are also based on the average dry soil when the plants are dug, and when extremely wet, the weights will naturally be increased.

COST OF TRUCK DELIVERIES

Some Customers prefer to purchase Nursery Stock delivered in Truckload lots, rather than in Carload lots, and ask us to make deliveries via Trucks.

For rendering this Service, we can make deliveries by Truck when and where we can make up Minimum Truck-Load lots, up to around 10,000 lbs. in the same direction, or to a certain destination, or stop enroute.

SCHEDULE FOR RATES BASED ON WEIGHT

In order to state a definite figure to determine delivery cost (First estimate weight as above); we have divided our Delivery radius into two areas, according to Distance:

AREA No. 1—(To Houston, Galveston, Huntsville, Lufkin, Texas and DeRidder and Lake Charles, La.) Radius of around 100 miles from Beaumont, Texas.

BALLS WEIGHING up to 50 lbs. each, ADD .12c each

BALLS WEIGHING up to 100 lbs. each, ADD .25c each

BALLS WEIGHING over 100 lbs. each, ADD .30c per 100

AREA No. 2—(To Corpus Christi, Austin, Dallas, San Antonio, and Waco, Texas and Baton Rouge, Monroe, and New Orleans, La.) Radius of around 300 miles from Beaumont, Texas:

BALLS WEIGHING up to 50 lbs. each, ADD .25c each

BALLS WEIGHING up to 100 lbs. each, ADD .50c each

BALLS WEIGHING over 100 lbs. each, ADD .60c each

NOTICE: We reserve the option to load orders in cars, using the B&B Carload rates to certain unloading points, using the Stop-over privilege where advisable, Customers to take delivery at Car doors.

TERMS ON DELIVERIES: For these delivered prices, we must have Cash With Order, and approximate cost to cover transportation charges, any additional Freight Charges after the order is weighed, to be paid C.O.D. as we cannot afford to deliver Stock, and have it refused at destination. Any adjustments necessary will be given our prompt attention after delivery is completed.
